NAVAL AIR STATION PENSACOLA COMPLEX  
ENVIRONMENTAL POLICY STATEMENT  
11 April 2016

The Naval Air Station Pensacola (NASP) Complex recognizes environmental excellence as a principle factor in successful mission accomplishment. We have established a goal of protecting, preserving, and conserving our environment through active stewardship and advocacy for our unique natural and cultural resources. To accomplish our goal, we collectively commit to prevention of pollution and compliance with environmental regulation and other requirements through a process of continual improvement. We will be guided in our efforts by the following principles:

Incorporate environmental policies into planning, decision-making, and business practices throughout NASP.

Evaluate our practices and develop objectives, targets, and programs to meet our established goals and mitigate environmental impacts.

Conduct periodic management reviews to assess the achievement of our objectives and targets, and to determine the effectiveness of our environmental management system as a process for continual improvement.

Communicate our environmental policy to personnel and educate them in their roles and responsibilities as stewards of the environment.

Increase community awareness of our environmental programs through public outreach and events.

A handwritten signature in black ink, appearing to read "C. T. Martin", is positioned above the printed name.

C. T. MARTIN  
Captain, U.S. Navy  
Commanding Officer
