FINAL NOTICE OF A PROPOSED ACTIVITY IN A FLOODPLAIN

Pursuant to Executive Order 11988, *Floodplain Management*, the United States Department of the Navy (Navy) gives notice that the Navy has conducted an evaluation of a Proposed Action which involves construction in a floodplain to determine the potential effects that its activity in the floodplain would have on the human environment. The Navy identified that there are no practicable alternatives to locating the action in the floodplain and that the Proposed Action includes all practicable measures to minimize harm to the floodplain environment.

The proposed action is to construct a new student fitness facility aboard Naval Air Station (NAS) Pensacola, located in Escambia County, Florida, to replace buildings 606 and 627 fitness spaces that sustained substantial damage during Hurricane Sally on September 16, 2020. Construction of a new student fitness facility includes providing a single-story, steel-framed fitness facility, consisting of non-loadbearing exterior walls, brick veneer exterior finish, reinforced concrete foundation and standing seam metal roofing system. Construction of a new student fitness facility will provide the facilities needed to serve the student population aboard NAS Pensacola. Additional details of the proposed action are included in the attached Record of Categorical Exclusion.

Interested parties may submit written comments no later than 5:00 PM Central Time on April 13, 2022 by email to [joelle.a.odaniel-lopez.civ@us.navy.mil](mailto:joelle.a.odaniel-lopez.civ@us.navy.mil) or by mail postmarked no later than April 13, 2022 to:
